Senior Care Partners P.A.C.E. Moving Headquarters to Battle Creek's Summit Pointe

Kalamazoo, MI -- July 27, 2021 – Senior Care Partners P.A.C.E., which provides health care services to more than 600 seniors in southwest Michigan while enabling them to continue living safely at home, announced today that it is moving its headquarters to the Summit Pointe facility in downtown Battle Creek, Mich.

“We have been growing,” said Laura Ferrera, CEO of Senior Care Partners P.A.C.E. “Prior to the pandemic, space at our current headquarters was tight, and the pandemic has contributed to additional growth as families look for alternatives to nursing home care.” All told, the organization’s growth has exceeded 100% since 2017, approximately 25% of that occurring during the pandemic.

Another factor in the recent growth of Senior Care Partners P.A.C.E. was the addition of Senior Health Partners in January of this year. Senior Health Partners provides exercise and fitness programs, monthly support groups, geriatric care planning and management, care planning and various educational services, enabling Senior Care Partners P.A.C.E. to provide the full spectrum of geriatric care.

The headquarters move is scheduled to begin September 1, 2021. Some 40 corporate staff members and employees in ancillary functions will make the move, according to Ms. Ferrara.

Senior Care Partners P.A.C.E. currently operates Adult Day Health Centers in Kalamazoo, Battle Creek, Albion and Portage.

“The headquarters move will not affect any of the operations at our Family Centers,” Ferrara said. “We will continue to provide the same top-tier level of care and programs at our centers.”

About Senior Care Partners P.A.C.E

Senior Care Partners P.A.C.E (**P**rograms of **A**ll-inclusive **C**are for the **E**lderly) is an innovative model that provides a range of integrated services to manage the complex health care needs of the elderly. P.A.C.E was created to provide participants, caregivers and professional health care providers the flexibility to meet the participant’s health care needs while continuing to live safely in their homes. The purpose of a P.A.C.E program is to provide comprehensive high-quality, economical health care services that are designed to assist the elderly with:

- Quality of life and autonomy;
- Dignity and respect;
- Life at home if medically and socially feasible; and
- Support for the caregiver.
